

# INFINITI MARINE INTERNATIONAL

'We go out our way, so you don't have to'

**Integrated Marine Service Providers**

[www.infiniti-marine.com](http://www.infiniti-marine.com)

## About us

**Infiniti Marine International** was founded by a group of Maritime Professionals in 2014 and has offices in the United Kingdom, United Arab Emirates and India. Our strengths, knowledge and expertise lay in the provision of supplying offshore vessels, marine equipment, brokerage, chartering and turnkey project solutions.

**Infiniti Marine International** has become 'a one stop shop'.

**Our Mission** is to provide high quality, efficient, cost effective, bespoke marine services and solutions to our clients within a high paced environment, meeting accredited International industry standards, with key focuses on Quality, Performance, Health and Safety and aims to provide total client satisfaction.

**Our Vision** is to provide unique Marine Solutions with a positive and dynamic approach, with competitive Rates, ensuring client confidence, comfort and satisfaction from beginning to end.

Further expansion is planned, with **Infiniti Marine International** looking to branch out into other market segments and developing regions to support our increasing clientele.

## Our Services

**Our Team** constantly research and monitor Regional and Worldwide developments to ensure that they are fully diligent of market trends, conditions, local, regional and international requirements and governing laws for full compliance to ensure that our clients get an optimised and cost effective service.

Whether we are project Managing, brokering or cross chartering vessels for short or long term requirements, we provide the same high level of support, service and guidance throughout.

We remain involved from beginning to end, negotiating pricing, drawing up and negotiating contracts, organising vessel mobilisations / demobilisations, Marine Warranty Surveys, Agencies, Supplies and bunkers and have a vast knowledge of regional requirements, relevant documents, clearances, additional insurance requirements, crewing, familiarisation, marine operating and security procedures.

We closely monitor the performance of vessels or equipment throughout the charter / hire period and act as the owner with passion ensuring that the contract is conducted seamlessly, so the client does not have to, all parties to the agreement remain comfortable and satisfied throughout the duration of the contract.

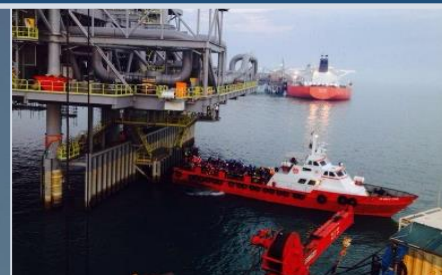

With a vast database and network connections, we are able to use our expertise to source specialised equipment and services to compile a complete package which fits the needs of clients.

Guidance and advice from our technical and operations team can often assist and streamline and enhance performance.

On behalf of our esteemed manufacturers we also offer a wide range of high quality marine products and technical support.

Heating and cooling equipment can often fail or underperform due to harsh and extreme environments and our Heat transfer specialists are on call to quickly pin point and resolve any technical issues arising.
